

ALLIANCE FOR NEW NIGERIA

THE MANIFESTO

THE PREAMBLE

With this platform, we the Alliance for New Nigeria affirm the principles that unite us in a common purpose.

We believe in the Nigerian uniqueness. We believe Nigeria is like no other country in the world. We affirm our constitutional system — limited government, separation of powers, federalism, and the rights of the people — must be preserved un-compromised for future generations.

We affirm political freedom and economic freedom are indivisible. When political freedom and economic freedom are separated — both are in peril; when united, they are invincible.

We affirm that people are the ultimate resource — and that the people, not the government, are the best stewards of our country's God-given natural resources.

Based on these principles, this platform is an invitation and a roadmap. It invites every Nigerian to join us and shows the path to a stronger, safer, and more prosperous Nigeria.

This manifesto is optimistic because the people are optimistic for transformation.

This manifesto lays out — in clear language — the path to making Nigeria great and united again.

The Alliance for New Nigeria (ANN) was formed as a party with the lofty objectives to pull Nigeria back from the fringe of socio-political and economic hopelessness it has been plunged by successive visionless, self-centered and myopic leaders thrown up as head of government for over fifty years post-colonial independence.

At independence, Nigeria's potential as the leader of the black race was not in doubt. The general opinion and understanding was 'here lies the giant of Africa' the country to lead Africa to economic and political prosperity. Over Fifty years after, the expectations have remained a potential. The lofty dream and struggles of our heroes' past has been eroded. Our dreams of making this country great in its full potential has remain forlorn. Nigeria has failed to realize its potentials, despite its vast human and material resources, rather, the country has been grappling with internal socio-political, economic issues that has almost crippled its development. The country has been bedeviled by serious debilitating issues as a consequence of inexcusably bad leadership. Nigeria is blest with visibly evident symptoms of underdevelopment with all indices of growth and development in the negative.

Consequently, there has built up frustrations among the populace causing insurrections, insurgencies, militancy and trident calls for restructuring and revised resource allocation formula. Added to this is the issue of false federal system of government in practice in Nigeria and the deliberate and orchestrated recycling of failed political leaders, ethnicity and grand promotion of mediocrity over merit in every aspect of governance and total failure in infrastructural development, and economic stagnation.

THE INSPIRATION

The blowing wind of real change across the globe through the ballot has inspired the formation of the Alliance for New Nigeria to drive the emergence of a new set of leaders. New visionary leaders who are technocrats first above being politicians. Leaders to rescue this country from inept, corrupted, bigoted, and mediocre leadership Nigeria has been plunged, as visibly evident in the last few years of the present government.

The ANN is poised and committed to pull Nigeria back from the precipice, through new and untainted, visionary and proven leaders committed to putting Nigeria and its development first.

This is the only inspiration and passion that can steer the ship of the Nigerian state away from destruction and back on to the path of sustainable development, national peace, prosperity and progress.

OUR MISSION

Our mission is to restore Nigeria to glory path, create and develop a country that will hold its place in the comity of nations, where we rank top 20 in every indices of human development. We are going beyond rhetoric, to a Nigeria-first mentality. We believe that Nigeria is greater than any individual or the sum of her Federating Units. We also stand to promote an egalitarian society, where everyone enjoys equal rights anchored on sound democratic practice.

We will restore the sound faith and commitment to Nigeria as engendered in our National Pledge through a deep commitment welfare and security of the citizens of Nigeria.

As a party determined to make the difference, ANN will present leadership of young, vibrant, technocrats and professionals with proven success records that will reveal that developing and transforming of Nigeria is no rocket science.

ANN shall also promote true federalism, devolve power to the federating units so each unit can develop at its own pace.

We shall also support and preserve the fundamental objectives and directive principles of state policy as enshrined in chapter two of the 1999 constitution of the federal republic of Nigeria as amended.

THE MANIFESTO

The ANN manifesto is built around the following cardinal programs:

- Section 1: Government Reforms
- Section 2: Energy/Power
- Section 3: Agriculture
- Section 4: Environment
- Section 5: Industrialization
- Section 6: Health
- Section 7: Housing
- Section 8: Education
- Section 9: Science, Research and Technology
- Section 10: Guaranteeing Civil Right
- Section 11: Women's Right
- Section 12: People With disabilities
- Section 13: Cultural Agenda
- Section 14: Foreign Policy
- Section 15: Anti- Corruption
- Section 16: Security
- Section 17: Press Freedom
- Section 18: Cybersecurity and Online privacy
- Section 19: Defense
- Section. 20: Transportation

SECTION 1. GOVERNMENT REFORMS

An ANN government will set in motion above all a government reform. We pledge to make government to work for the people and not the people for the government. We also pledge to streamline much of what government does now. We will also identify much of what needs to be replaced and much to be done away with.

ANN will make government simpler and more user-friendly. The federal government too often operates with websites designed from another era that are too complicated, too hard to use, and rarely designed for mobile phones or tablets. We will build on/create a Nigerian Government Digital Service (NGDS) and give it the resources it needs to transform and digitize the top 25 federal government programs that directly serve citizens. We will eliminate internal barriers to government modernization. And we will use technology to improve outcomes and government accountability by embracing prioritized goal setting and performance tracking for the federal government.

We will also promote;

- Promotion of the rule of law
- Reduction of governmental expenditure by prioritizing thrift over extravagance.
- Power Devolution from the centre to the federating states
- Ethical Reformation
- Transparency
- Governmental Service Delivery par excellence

SECTION 2: ENERGY/POWER

Availability of regular power supply is very critical to the development process of any country. The inability to provide enough energy by successive government in Nigeria has stunted industrial development and productivity since it forms the bedrock of virtually all indices of development. An ANN led government will prioritized and pursue vigorously the expansion of energy generation and distribution progressively to about 40,000 megawatts. We shall considerably resolve all the inherent challenges that has negatively affected this sector. We shall work to deliver more than enough energy through alternative energy sources such as coal, solar, hydro, wind and biomass for domestic and industrial use, wherever these prove viable.

ANN shall:

- As a matter of pressing priority and urgency, tackle the paralyzing lapses with electric power generation, distribution and supply.
- Resolve all bottlenecks around the reform of the power sector and develop a transparently agreed power generation and distribution milestones with clear timeliness and targets.
- Liberalize the monopoly of the Federal Government in power generation and supply. We shall devolve much of power and energy to the private sector.
- The gas and thermal stations will particularly be encouraged to increase their supply capacities.
- Alternative power sources, including hydro, solar, coal and wind energy will be explored and developed.

- Regular Turn Around Maintenance (TAM) of existing facilities will be done to ensure steady and uninterrupted utility supply.
- An aggressive and efficient tariff/revenue recovery system will be pursued. All avenues of waste, corruption and abuse will be checked.
- Rural electrification will continue to be encouraged.
- Create and support effective management of the nation's energy distribution system, encourage commitment to consumer service by distribution companies.
- Promote awareness on energy conservation and maintenance culture especially on electricity usage.

SECTION 3: AGRICULTURE

The ANN government's Principal program shall be the development of agriculture. Our agricultural objectives shall aim at"

- Self-sufficiency in food production throughout the year;
- Making agriculture profitable across its value chain.
- Making our agriculture as a major source of industrial raw materials and foreign exchange earner;
- Providing infrastructure for storage of both perishables and non-perishables for all year availability
- Creating and strengthening necessary agriculture support institutions
- Rebranding of Agriculture sector with prestige to attract more people to the sector and promote its value chains.
- The protection of farmers against all hazards.

ANN Strategy:

- Declaration of state of emergency on agriculture.
- Operational involvement of all individual, corporate, governmental and non-government stakeholders.
- Initiation, promotion and encouragement of massive private sector Participation.
- Creation of legislation to ease acquisition of land for agricultural purposes.
- Inauguration of Operational task group on agriculture.
- Facilitation of integrated ownership scheme.
- Development of economy of scale processes.
- Development of Agriculture Development Architecture.

Focus of agriculture development shall include:

- Introduction of all-seasons land cultivation.
- Water cultivation
- Agriculture business Units.
- Agricultural Cooperative and Micro Finance Scheme.
- Trans-Border Initiatives.
- Regular Agricultural Roundtable for review and facilitation of the agricultural sector.

ANN will also embark on a massive and comprehensive re-organization and reengineering of the agricultural industry:

- To supply the raw material for industrial processing and manufacturing.
- To earn stable remunerative prices in the local and international markets.

- In addition, ANN will revamp the River Basin Authorities, which are the best vehicles for Nigeria's agricultural revival and expansion.

In recognition of the important role of agriculture in national development, our party in Government will be guided by the following:

- The creation of functional agricultural Extension and food inspectorate divisions with a view, not only to making professional services available to farmers, but also improving nutrition and eliminating food-borne hazards.
- Embarking on massive agricultural land preparation in all states to prepare the ground for massive crop production by restoring the NALDA.
- Encourage commercial livestock and fisheries development as well as strengthening forestation and environmental protection schemes.
- A policy to encourage young people to go into agriculture by funding incentives and mechanization techniques. This will replace the aging current generation of farmers who are too few to meet the nation's demands.
- Reclaiming the desert by tree planting programs and growing alfalfa grass, and other legumes for livestock nutrition.
- Institution of land army scheme across the nation.
- Restarting farm settlements and procuring appropriate machinery for agricultural productivity, locally sourced or imported.
- Strengthening the Bank for Agricultural and Rural Development
- Investing in irrigation facilities for all season agro-enterprise

SECTION 4. ENVIRONMENT

ANN observes with dismay the danger posed by environmental degradation and the dangers posed by climate change. Efforts will therefore be intensified to protect our environment by:

- Ensuring compliance with policies and measures to halt the pollution of rivers and waterways in the Niger Delta and other parts of the country;
- Creation of shelter belts in states bordering the Sahara Desert to mitigate and reverse the effects of the expanding desert;
- Supporting and accelerating the implementation of regional water transfer initiatives across the country.
- Adopting a holistic approach to erosion and shoreline protection across the country
- Creation of teams of volunteers to plant and nurture economically viable trees in arid regions;
- Restructure the Ecological Fund Office to enable it meet today's environmental challenges;
- Regulate the timber industry to ensure that double the number of trees felled are planted by the loggers;
- Ensure full compliance with town-planning and environmental laws and edicts;

SECTION 5: INDUSTRIALIZATION

Industrialization promotes and accelerates economic and social development of any nation. It is a vital ingredient for economic development, technology development and the general wealth being of our nation. The existing situation in the nation is unacceptable.

The ANN government will prioritize the provision of an enabling environment for industries to thrive through the following:

- Reviewing legislations that impact negatively on the ease of doing business in Nigeria.
- Reviewing cases of multiple taxation on industries.
- Providing tax rebates for qualified industries.
- Promoting and supporting medium and small-scale Enterprises access to funding.
- Development of manpower and skill acquisition in our Human Resources.
- Strengthening of existing development institutions toward providing adequate support to industries to promote industrial growth
- Reviewing export promotion processes and legislation to ensure competitiveness of made in Nigeria goods.
- Enacting deliberate policy that will promote consumption of local products to protect local industries.
- Providing world class enabling environment for industries to flourish and attract new ones.

SECTION 6: HEALTH

ANN shall present a comprehensive health-care policy for the country, the essential aim of which shall be:

- Medicare for all citizens;
- Expanding the net for Medical Aids through NHIS
- Strengthening the National Health Insurance Scheme
- Quality and affordable medical services
- Free medical services to the aged and the handicapped.
- Providing all needed support to the healthcare professionals to stimulate quality medicare delivery

Our Strategy shall include:

- Provision of free immunization to all children intensively to completely eliminate preventable diseases.
- Access to standard primary health centers, equipped with pharmacies, particularly the rural dwellers.
- Progressively provide General Hospitals in all Local Government headquarters; specialist hospitals in all State Capitals.
- Encourage research into traditional medical practices and integrate these practices into the orthodox medical system.
- Equip and expand the teaching Hospitals in the country.
- Raising the Doctor to patient ratio considerably to global standard.
- Provide special incentives for medical practitioners and other medical personnel with particular emphasis in those located in remote areas
- Stimulate the local production of medical drugs and other supplies

- Encourage family planning by providing family planning services and materials free of charge
- Regulate private hospitals, medical clinics, and pharmacies to protect Nigerians against exploitations
- Enact and enforce stringent laws against the manufacturing and sale of fake and adulterated drugs; and promote a healthy physical environment by intensifying the present periodic environmental sanitation exercises.

SECTION 7: HOUSING

The ANN believe that every Nigeria has a right to own a decent home and that accommodation and right to live in a conducive environment is vital to high productivity, comfort and security. The ANN will ensure that all Nigerians have equal opportunity and access to affordable homes through these strategies;

- Simplifying process of acquiring land for building purpose;
- Initiating research into and development of local building materials with a view to reducing cost of same;
- Providing home ownership guaranteed loans at low interest rates to assist individuals build and own their homes;
- Encouraging corporate bodies, companies, industries and parastatals to provide housing for their staff on owner-occupier basis with liberal terms for repayment;
- Encouraging the setting up of private-owned real estate development companies to build houses for sale to the public at affordable prices;
- Formulating and implementing a resettlement policy to take care of people displaced either as a result of government projects or natural disasters or ecological factors;
- Strengthening the federal, Mortgage Banks to allow it meet the financial requirements of individual Nigerian home owners
- Improving and beautifying the environment by establishing open spaces, parks and gardens for recreational purposes in cities, towns and within housing estates established by government or government agencies and by the private sector.

SECTION 8: EDUCATION

We believe that a good education is the basic right of all Nigerians irrespective of their ethnic, religious, or social background. We desire to build a strong qualitative educational system from cradle to college, where every child can live up to his or her God-given potentials.

The ANN strongly posit that the education is the antidote to the challenges in all other sectors in Nigeria. The ruts in the system is quite traceable to the gradual drop in educational qualities and outcomes over the years.

We also believe that Nigeria's education should be marked by a continuous search for excellence supported by the political will for good governance and transparency.

We have identified the following as areas of challenges in the entire educational systems which will be our focus:

Funding Education

- Funding: 30% of National budget to meet UNESCO benchmark on education. Applying fund to significantly improve facilities for teaching and learning, teacher quality and welfare, and curriculum delivery.
- Funding to breakdown obstacles to access of over 15million out-of-school children.
- Funding to improve school safety, reading culture among youth.
- Funding for overall improvement in the quality of education delivery.

Access to Basic Education

- Revising the entire universal basic education policy
- Reduction of illiteracy/ Part of poverty alleviation
- Technical and vocational Education Educational policy review
- Reform Training for Teachers and educational support Professionals and specialized staff.

We will launch a national campaign to recruit and retain high-quality teachers. We will ensure that teachers receive the tools and ongoing professional development they need to succeed in the classroom and provide our children with a world-class education. We also must lift up and trust our educators, continually build their capacity, and ensure that our schools are safe, welcoming, collaborative, and well-resourced places for our students, educators, and communities.

SECTION 9: Science, Research and Technology

ANN support ambitious public and private investments in science, technology, and research. We are focused on creating good jobs in communities across Nigeria. Entrepreneurship and innovation are fundamental to our future economic growth—in the information technology (IT) industry as well as energy, manufacturing, transportation, health, retail, services, and countless other sectors.

We will nurture the next generation of scientists, engineers, and entrepreneurs, especially women to make sure our country starts to out-compete and out-innovate the rest of the world with our bold innovation agenda.

New technologies are already transforming our economy, and they have the power to generate trillions in economic output. We must harness these forces so that they create higher-paying jobs across the country, bring more people into the workforce, and reduce inequality.

To do this, we will educate our people and train our workforce; support entrepreneurship and promote inclusion in the digital economy; attract and retain talented people from all over the world; and invest in research and development, innovation hubs, as well as in getting ideas to market. We also need to ensure that all students have the opportunity to learn computer science by the time they graduate from high school.

ANN believe we must harness the promise of technological innovation to promote community participation and enhance opportunities to achieve greater economic self-sufficiency for people with disabilities. We will encourage technology transfer, entrepreneurship, and small business creation throughout the country and in all types of innovation sectors.

High-speed internet connectivity is not a luxury; it is a necessity for 21st century economic success, social mobility, education, health care, and public safety. Despite considerable progress and private investment in the last eight years to close the digital divide, there is more work to do. ANN will support the idea of connecting every household in Nigeria to high-speed broadband, increase internet adoption, and help hook up anchor institutions so they can offer free WiFi to the public.

We will take action to help telecom organizations to widely deploy 4G and 5G technology—the next generation wireless service that will not only bring faster internet connections to underserved areas, but will enable the Internet of Things and a host of transformative technologies.

ANN government will value Nigerian innovation and believe it is one of our country's great strengths. We will protect the intellectual property rights of artists, creators, and inventors at home and abroad. The entire nation prospers when we promote the unique and original artistic and cultural contributions of the women and men who create and preserve our nation's heritage.

ANN will fight against unfair theft of intellectual property and trade secrets. We will increase access to global markets for Nigerian intellectual property and other digital trade by opposing quotas, discriminatory measures, and data localization requirements.

SECTION 10: Guaranteeing Civil Rights

The ANN will always fight to end discrimination on the basis of ethnicity, state of origin, language, religion, gender, age, gender identity, or disability. We will promote civility and speak out against bigotry and other forms of intolerance that have entered our political discourse.

It is unacceptable to target, defame, or exclude anyone because of their race, ethnicity, state of origin, language, religion, gender, age, gender identity, or disability. While freedom of expression is a fundamental constitutional principle, we must condemn hate speech that creates a fertile climate for violence. We also condemn the recent uptick in other forms of hate speech spreading across the nation.

Section 11: Guaranteeing Women's Rights

We are committed to ensuring full equality for women. ANN will fight to end gender discrimination in the areas of education, employment, health care, or any other sphere. We will combat biases across economic, political, and social life that hold women back and limit their opportunities.

Section 12: Guaranteeing Rights for People with Disabilities

No one should face discrimination based on disability status. ANN platform is committed to realizing the full promise of all legislation that protects people with disabilities. with Disabilities. We will protect and expand the right of Nigerians with disabilities to get the accommodations and support they need to live in integrated community settings. We will improve access to meaningful and gainful employment for people with disabilities. We will

provide tax relief to help the millions of families caring for aging relatives or family members with chronic illnesses or disabilities.

Section 13: Cultural Agenda

Culture is an indispensable aspect of political and economic development of the nation. In a multi-ethnic and multi-religious society, we will need at all levels a cultural policy that is capable of enhancing the unity of people of diverse cultures while respecting the autonomy of each culture. We will develop policies that will remove inter-ethnic fear and suspicion and replace this with inter-ethnic cooperation and tolerance.

We shall also protect the integrity of traditional institutions by supporting states to determine ways of integrating traditional rulers into their governments.

Section 14: Foreign Policy

ANN affirms strongly the protection of Nigeria national Interest and seek to protect the integrity of all Nigerians both home and abroad. We will ensure that our foreign policy is pursued in a way to promote our interest. We will also promote friendly and reciprocal relations on a bilateral and multi-lateral basis across the world and resist all forms of discrimination, domination and aggression against Nigeria.

We shall consciously promote the process of economic integration of ECOWAS member states while emphasizing economic diplomacy by establishing special unit in key diplomatic missions to facilitate the acquisition of advanced technology and promote trade and investment.

Africa shall remain a focus. We shall recognize Nigerians in the Diaspora and tap into their vast professional experience in the design, development and implementation of government policies and programs.

ANN will also affirm our commitment to the review of both multilateral and Bilateral treaties we have signed in order to rescind any that does not serve our current national interest.

We will strengthen and reposition the Ministry of Foreign Affairs to meet the challenges of the 21st century.

We also affirm the provision of a strong military leadership in security arrangements with ECOWAS, African Union and the UN.

Our Embassies and High Commission shall protect all Nigerian citizens abroad, and continue to promote the good image of the country. Our Embassies and High Commissions will be better funded.

Section 15: Anti-Corruption

ANN believes that we need to fight and end corruption nationally and worldwide and increase transparency. We will fight corruption, promote good governance, and support the rule of law. We will also seek to close all gaps that aid corruption, which corrupt rulers, individuals, and corporations exploit to line their pockets. Using the most updated IT tools and applications, we will as a matter of policy not only prevent acts of corruption but also makes it difficult for proceeds of corruption to be used or enjoyed by the perpetrators.

Section 16: SECURITY

The ANN affirms that it will promote security both internally and externally: Internally against insurgency and insurrection within our borders. Externally against any external aggression.

Government shall endeavor to stem the wave of violent crimes in the country by:

- Reorganizing and equipping the Nigeria Police Force with modern equipment
- Providing more relevant professional training opportunities to the force, at local and international training institutions;
- Motivating the police force with enhanced conditions and environment of service;
- Providing enlightenment and educating program about the actual roles of the police and their relationship with the civil society;
- Providing enlightenment program for the public on how to complement the work of members of the police force;
- Reorganizing the prison system to ensure:
 - i. Decongestion of prisons and improved accommodation for inmate and
 - ii. The provision of more positive rehabilitation program.

Section 17: LAW AND SOCIAL JUSTICE ADMINISTRATION

The ANN affirms the principle of separation of powers and the independence of the Judiciary as enshrined in the constitution. Every constitutional mean shall be employed to protect the integrity of the judiciary to ensure objective administration of justice.

Adequate and direct funding of the judiciary shall be upheld. We shall resist every attempt to impugn the integrity of judicial officers while also holding them to the highest level of accountability in the course of their duties. We shall also ensure that the process of getting justice remain affordable to ordinary Nigerians.

Section 18: PRESS FREEDOM

The ANN will continue to recognize the press as the fourth estate of the realm and give teeth to the freedom of information Bill.

To this end, the freedom of the press shall be stoutly defended by the party. The party on getting to power shall for this purpose repeal and make redundant all legislations which tends to gag the press.

Furthermore, we shall introduce enactment which will make it unlawful for the police and other national security agencies to arbitrarily raid media houses and institutions, and harass journalist on charges connected with the conduct of their professional duties and obligations.

Section 19: Cybersecurity and Online Privacy

The ANN government will protect our industry, infrastructure, and government from cyberattacks. We will develop and strengthen our cybersecurity, seek to establish global norms in cyberspace, and impose consequences on those who violate the rules. We will do this while protecting the privacy and civil liberties of the Nigerians. We will also ensure a coherent strategy across federal agencies by developing a Cybersecurity National Action Plan, especially the appointment of a federal Chief Information Security Officer, the modernization of federal information technology, and upgrades to government-wide cybersecurity.

Section 20: Defense

ANN believes Nigeria must continue to have one of the greatest military in Africa. We commend the great contributions of our military to the maintenance and enforcement of peace in many areas of conflicts across the world. We also commend their achievement in the fight against insurgency in the North East of Nigeria.

We support a smart, practicable defense budget that meets strategic challenges we face. We also will prioritize our military readiness by ensuring all military components remained best trained and well equipped. We seek a more agile and flexible force and we will rid the military of outdated systems for a more modernized one.

We will end wastefulness and corruption in Defense budget and ensure the Defense ministry utilizes its budgets wisely.

We will also keep faith with our veterans and wounded soldiers.

Section 21: TRANSPORTATION

ANN affirms that efficient and effective transportation system is a sine-qua-non to economic development. As a consequence, we shall commit to the total overhaul of our existing transportation system to a functional and modern one. We will design a phased development plan for the transport sector namely Road, Railway, Waterways to holistically transform this sector.

ROAD TRANSPORT

- Undertake a survey of the condition of the Federal highways and State roads, including rural feeder roads as a basis for embarking on appropriate reconstruction, rehabilitation and maintenance works.
- We will embark on a National Infrastructural Development Program as a PPP that will ensure the construction of 6,000 kilometers of super highways.
- Modern well managed Toll gates will be reintroduced to generate revenue for optimal maintenance of roads network.

RAIL TRANSPORT

- Our Rail network will be upgraded modernized to world class by and rehabilitation of tracks, procurement of new rolling stock and improvement of all operational and management techniques.
- Annually we will construct over 250 km of modern standard railway lines annually.

- Complete the medium steel section of Ajaokuta, which can produce two-kilometer rail track steel per day, and use our locally made track for the modernization program.

AIR TRANSPORT

- Improvement and modernization of aviation infrastructure, compatible with international safety standards.
- Continuous encouragement to private airline operators, subject to their meeting the required globally accepted conditions and safety standards.
- Provision of a Standard Hanger in partnership with the private sector for the maintenance of aircraft in the sub-region.
- Resuscitation of the National carrier.

MARITIME TRANSPORT AND INLAND WATERWAYS

- Renovation and modernization of the ports to enable them cope with growing traffic
- Encouragement of Nigerian nationals to participate in international shipping and maritime trade.
- Local manufacture and maintenance of vessels for water transportation.
- Greater utilization of inland waterways as alternative mode of moving goods and services in the country.
- Encourage maritime cruises and pleasure boats for recreation and tourism
- Complete the dredging of River Niger.
